

Jose Danilo Narvaez Arias

Systems Engineer | Cloud & Telephony Infrastructure | DevOps

Bogotá, Colombia | jnarvaar@icloud.com | linkedin.com/in/jose-danilo-narvaez-arias-26488025a/ | github.com/dny1020

SUMMARY

6+ years at Emtelco building scalable VoIP systems with Asterisk, Kamailio, and SIP. Fluent in Python, Bash, and containerized deployments. Self-hoster and privacy advocate, now pursuing an AI specialization.

PROFESSIONAL EXPERIENCE

Telephony Engineer Jun 2024 - Present

EMTELCO S.A.

Design and implement enterprise SIP telephony solutions. Build WebRTC contact center platforms with Asterisk and Kamailio. Automate VoIP provisioning and monitoring with Python, Bash, and Docker. Manage Linux infrastructure, Nginx reverse proxies, and CI/CD pipelines.

Telephony Analyst Oct 2021 - Jun 2024

EMTELCO S.A.

Analyzed and optimized telephony infrastructure. Developed Python-based automation tools for Asterisk AMI/ARI. Implemented Prometheus and Grafana dashboards for real-time VoIP monitoring. Managed SBC configurations and Genesys Cloud BYOC integrations.

Help Desk Analyst Apr 2020 - Oct 2021

EMTELCO S.A.

Provided technical support for telephony systems and network infrastructure. Resolved escalated tickets for SIP, VoIP, and network issues. Documented processes and contributed to knowledge base development.

Back Office Employee Jan 2019 - Dec 2019

Vodafone (via Teleperformance)

Remote technical support for Vodafone customers. Router configuration, troubleshooting connectivity issues, and Linux system optimization for network services.

Help Desk Specialist Feb 2012 - Nov 2018

Claro Colombia (via Atento)

6+ years providing specialized remote support for Claro Hogar. Fixed IP configuration, DMZ and NAT setups, network optimization, and customer troubleshooting for broadband and telephony services.

EDUCATION

Specialization in Artificial Intelligence Jul 2025 - Present

UNIR | Universidad Internacional de La Rioja

Postgraduate specialization focused on Python, TensorFlow, containerized LLM environments, and DevOps for AI pipelines.

Systems Engineering (B.Eng.) Jan 2019 - Jul 2024

Fundación Universitaria del Área Andina

Bachelor degree in Systems Engineering. Core focus on telecommunications, cloud computing, cybersecurity, and backend development with Python and Linux.

Diploma in CyberOps (Cisco) Nov 2023 - Feb 2024

Fundación Universitaria del Área Andina

Specialized diploma in cybersecurity operations and Cisco network defense. Training focused on CyberOps, threat analysis, and incident response.

TECHNICAL SKILLS

Languages

Python, Bash, JavaScript, SQL

Infrastructure

Docker, Kubernetes, Nginx, Traefik, WireGuard, Linux, Ansible, GitHub Actions

Telephony & VoIP	Asterisk, Kamailio, SIP, WebRTC, SRTP, PJSIP, Genesys Cloud, SBC
Cloud & DevOps	AWS, Azure, Prometheus, Grafana, CI/CD, Systemd, Crontab
AI & Data	Machine Learning, TensorFlow, FastAPI, LLMOps, MCP, RAG, SQLite, PostgreSQL
Tools	Git, Gitea, Vaultwarden, Raspberry Pi

CERTIFICATIONS

Diploma in Leadership and Management Skills - UNIR | Universidad Internacional de La Rioja (2024)
English Level B1 (ESL) - ILTO (International Language Teaching Organization) (2024)
AWS Knowledge: Cloud Essentials - Training Badge - Amazon Web Services Training and Certification (2025)
CyberOps Associate - Cisco (2024)
Introduction to Cybersecurity - Cisco (2023)
Networking Academy Learn-A-Thon 2023 - Cisco (2023)

LANGUAGES

Spanish: Native | English: Intermediate (B1)
